

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

PROBLEM

How might we help people to track the daily news?

TIP

You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

Jeevitha C	Indhumathi B	Jeevajothi D	Kanishka K
Aesthetic UI Design	Mobile notification functionality	Listen for a hiss or whistling noise	Vibrate an alarm buzzer
Visualize and display in real time	Easy to use	Stay updated with latest news	Dark mode and light mode UI
Responsive UI	Collaborating with government	Use a natural gas detector	AC-DC convertor as a voltage source
Clear instructions	Easy to share the results	monitoring services	Keep Employees happy
Celebrating our team and their achievements	Perform regular inspections	Daily and weekly reports on mobiles	LPG Sensors detects
Efficient and smooth working controller	User Security	High sensitivity to propane and less sensitivity to other gases	Arduino UNO turns on the LCD and buzzer

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

20 minutes

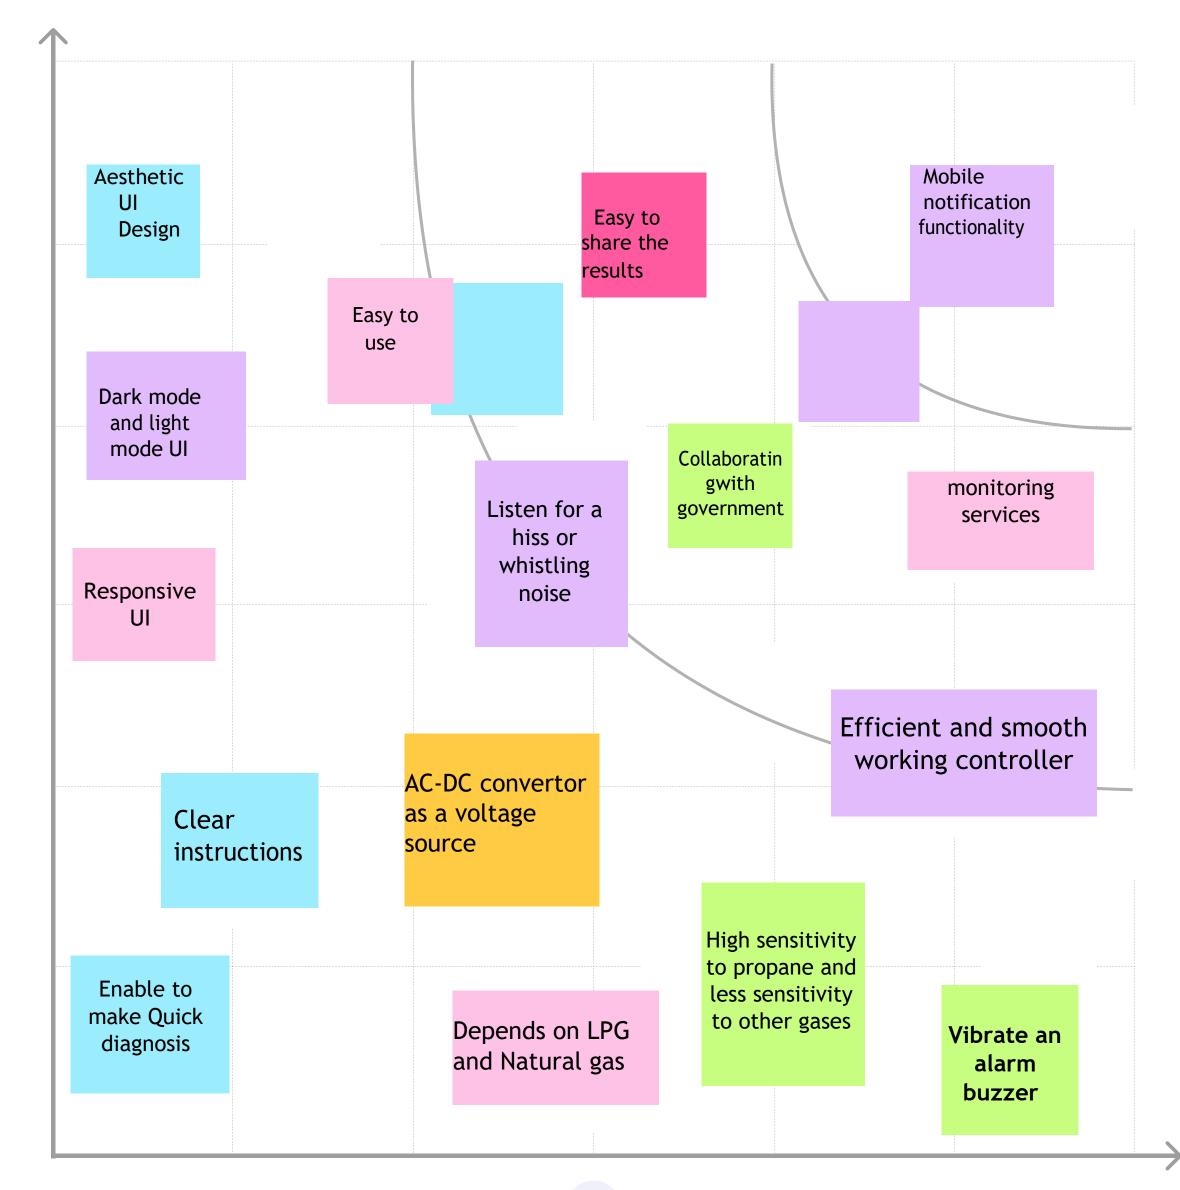

Natural gas

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

Feasibility

Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)
